

YMCA Camp Eberhart

Alumni Work Weekend 10-29-11

The weather was perfect, the projects were completed, and the ability to reconnect with old and new friends made for a perfect day. With a great turnout of current staff, former staff, and friends of current staff (18 in total) the day was a great success. Bushes were trimmed around Klinger and mulch was put into place around most of the building. Landscaping stone was used around the back door of Klinger, mulch was laid inside, and decorative grass was transplanted to it. Stone was laid around the cooling units for the kitchen, leaves were raked and ground clutter picked up; and that was just the morning. In the afternoon wood was split and stacked. Old unusable wood was cleaned up and burned. (This was the last of the downed trees for the large storms that ravaged camp four years ago.) A group dinner topped off the day followed by a campfire.

The YMCA Camp Eberhart Alumni Association provided very cool shirts for all participants. With the help of the alumni association this will be an ongoing means of thanks from the association.

I am extending a HUGE thank-you to all that were able to share in this day. The ability to continue to contribute to YMCA Camp Eberhart provides for a positive impact on everyone.

THNAK-YOU,

Chris Sallows
